

## Big Horn Rural Electric Company

# Outage Notification for Life Support Customers

Big Horn Rural Electric maintains a list of members who rely on electrically-powered life support systems (e.g. respirators, oxygen equipment, special monitors, etc.) In the event of a scheduled outage that may last for a few hours, we will make every effort to notify affected consumers in advance should they need to make special arrangements. We will attempt to contact you as soon as possible when an unplanned outage occurs in your area.

If you or a member of your family is dependent upon electricity for life support equipment, please complete the information on the following form and return it to one of our offices. To help us update our records, return the following form if you are presently in the program or need to discontinue this service.

Thank you for your assistance in maintaining this important information.

Outage Notification for  
Life Support Customers
